

## **Antiretroviral treatment**

Yat ma dilo kwidi two jonyo obedo gin ma pud piretek me lipo i kin jami mabeco ma daktare obedo ka timo ne i wilobo kany. En obedo yat ma ki monyo –amonya pi dilo kwidi two jonyo . kad i bedi wangeo ni two man pe cang-ento oloto romo kelo aloka-loka pi kwo wa i kit me kwo ki kwidi man.

Watye bene ki yat man ma i kine tye kite pat-pat magi tiyo tic ma pat-pat idul kom megwa .Lupe kit ma kwidi two jonyo yellow wa onyo lwenyo I dul kom wa ,yat magi gin aye nying gi egi , Nucleoside/Nucleotide reverse transcript as inhabitator, ma tiyo /lwenyo pi acikari me dul kom wa ,Non-Nucleoside reverse transcription inhabitator, matiyo pi dule kom wa ,protease inhabitator and fusion and entry inhabitator.

Nucleosides analogs enaye obedo yat ma ki bedo katic kwede con pi lweny i kom kwidi two jonyo i kin agiki me mwaka 1980's, ki gum maber aloka-loka otime i kin mwaka 1990's I kare ma ludito ma dongo ma gi tiyo i lok me yot kom gu ribo cingi ka gu caka yubu yadi ma ki lwongo gi ni Cocktail, yadi man gi nongo ni gi tye ki teko ma pol me lweny i kom kwidi two jonyo loyo tic ki yat acel kiken. Pieno kwidi two jonyo tye ki teko ma dwong dok lwenyo i kom acikare ma loyo dul kom dano. Man oweko neni piretek me yubu yadi ma rii ki yero ma romo pyera ariyo ma cik oyee ni gi tii kwedgi i lweny i kom two man. I kin gi ki yubu ki ma kwidi two jonyo lwenyo kwede ikom ngat acel-acel onyo gi romo kweny i kom kwidi ma gudote/otore.

Yat magdilo two man kono pe gi miyo atar, pien ki miyo ma lube kit ma remo pa ngat acel-acel tye kwede. Yo me miyo yat man tye adek ki ken, me acel, omwero ki mini onyo pe ki mini, omero kwidi jonyo obed dwong ma loyo dul acikari me komi / i remo ni.

Nentek tutwal ki tung bot dano mukene moni /kaka me niang nip e dano weng ma gi kwo ki kwidi two jonyo omero gu nong yat man i ca ma kwidi man omako gin cut –cut ,i kare mukene jo ma gi tye ki kwidi man I remo gi romo bedo ki lworogungcwiny me tic ki yat man ,gi tamo ni ka gi cako mwonyo yat man no dong gwak “kare me too gi dong cok”.I lok ada man pe kakare.Jo mukene kono romo bedo ki lworogungcwiny ka gi cako moyo yat man romo gengo gi woko ki tic,ki bene ka gi monyo ni omero gin gi cik wa i ot yat ma romo cwalo gi cawa ma dwong. Pien gwok yat man rom bwoyo remo gi woko. Man pe obedo lok ada. Yat ma iromo monyo ne ma rom aroma kit ma ki monyo pills ni ki bene lemony yat man bedo ki kwo marom-aroma kit ma conicalo i kare ma pud pe oyako monyo yat.

I kare ma ki loko yat madilo kwidi man, aloka-loka obedo tye ma ki biko ni percent pera abic i kom mia acel romo kwo pi teko pa yat man i mwaka me acel kiken. Wa tye bene ki

yoo adek ma pire tek pi aloka-loka man. Yat man tyero kelo two mogo calo cado kare ki kare, bedo nok pa remo, two orico ki mukene ma pol/dwong atar ma romo weko in i bedo ki lworogung cwiny ni yat man pe tiyo ma ber.

Kad i bed ni yat man madilo kwidi two jonyo pud ki kelo-akela, okonyo dano ma pol pien odiro nino gi ocito anyim. Wangeo ni peko me yat man pud tye madwong i lobo wa kany, pien dano ma nok aye gi tye ka tic kwede. Ma lube ki lok ma oa ki bot dul acel ma gitiyo i lok me yot kom ma ki lwongo ni UNAIDS i mwaka 2006 gin owaco ni tye dul pa dano ma romo million 40,000,000 ma gi tye ka kwo ki kwidi man i remo gi i wilobo kany. Pol pa dano man/dwong gi aar ki i Africa/lobo kama peko dwong i iye. Konodo jo ma nok kiken ma gi tye ka monyo yat madilo kwidi two jonyo. Omyero wangee ni la wamito kwo omyero wati ki yat man wek odii ninowa ocit anyim ki bene ka jo magi pud tye ka kwo ki kwidi man i remo gi ma pud gin kane pe gi mito tic ki yat ma omero gin ongee nino me kwo gi obi macok tutwal/nok.
